INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Solar Electric Light Fund
Washington, D.C.

We have audited the accompanying statement of financial position of the Solar Electric Light Fund as of December 31, 2002 and the related statements of activities and change in net assets, functional expenses and cash flows for the year then ended. These statements are the responsibility of the Solar Electric Light Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Solar Electric Light Fund's December 31, 2001 financial statements, and in our report dated May 28, 2002, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Solar Electric Light Fund as of December 31, 2002, and its change in net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.
